Allowable Subject Matter

Applicant has cancelled all claims rejected under 35 U.S.C. 103 leaving claims 9-15 and 17-19 as the remaining active claims.

The Examiner had earlier indicated that these claims are allowable. An updated survey did not yield a reference more germane than those already cited hence these claims still would appear to be in condition for allowance. Cited as being of interest but not particularly germane to the claimed invention are Mechtel et al., U.S. patent # 6,599,635, Kirchmeyer et al., U.S. Patent # 6,284,834 and Lyu et al., U.S. Patent Application Publication no. 2005/0003681. Mechtel discloses non-stick coatings derived from materials similar to the first and second claimed monomers and also a third reactant. There is no disclosure of silicon wafers as potential substrates or that the coating is any way microporous. Kirchmeyer et al., disclose waterproof coating compositions that likewise contain reactants corresponding to said first and second monomers and also a third condensation reactive compound. As before, the coating derived from this formulation is not porous nor is it used in the manufacture of semiconductors. Lyu et al. discloses a semiconductor interlayer film derived from a composition comprising a compound corresponding to the first monomer but a second monomer bears little structural resemblance to the second monomer of the instant invention. The Examiner could not ascertain what would motivate one of ordinary skill to replace the silalkylene silane with an alkoxy-endblocked polydiorganosiloxane like that presented in formula (2) of the claimed invention. Insofar as these documents fail to even render obvious the claimed invention, the aforementioned claims are deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marc S. Zimmer whose telephone number is 571-272-1096. The examiner can normally be reached on Monday-Friday 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy Gulakowski can be reached on 571-272-1302. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
